

Assignment 2.0

Steps: -

- 1) Create a tcl script named Ass2.0.tcl
- 2) Display on the screen the following message
 - "****Assignment 2.0****"
- 3) Create a list of name **"cities"** which contains the following elements.
 - cairo
 - alexandria
 - damietta
 - dakahlia
 - faiyum
 - sohag
 - aswan

The target to change the format of the elements name and store them in a new list of name "Cities_New" to have the first character "Uppercase Letter" and the rest of letters are "Lowercase" as follow

- Cairo
- Alexandria
- Damietta
- Dakahlia
- Faiyum
- Sohag
- Aswan

Hint : *Loop on the list element using foreach*
